## **Soroptimist International Liechtenstein**

**Attn: Mrs Vivien Gertsch  
Mrs Josy Biedermann**

### **Ref: Support for the Installation of 6 Pedal Pumps for domestic water supply**

Dear Soroptimist Ladies,

Please take reference to the heading above.

It is my pleasure to inform you that the support you have been providing for the installation of six pedal pumps for domestic water supply has been made available to us by Mr. Peter Ritter. He informed us that each of the Soroptimist International Clubs of Liechtenstein has donated the amount of Swiss Francs 2'400.- for this purpose and that the amount resulting in Tanzanian Shillings is 5'160'000/= (Five Million One Hundred and Sixty Thousand Tanzanian Shillings).

We have been using the funds to make all six installations after carefully evaluating the suitable location for these pumps. We found three districts close to Morogoro where people are suffering from inadequate water supply, especially women who are mostly responsible to provide domestic water. Please find further details in the report that Mr. Ritter has been translating to German.

It is my special interest to thank you for your support which is helping many Tanzanians, specifically Tanzanian women and girls. Their daily duties will be eased through your assistance. We are grateful that you choose our organisation to serve as your tool to do good and we will make sure that the service for the beneficiaries will be sustainable.

Sincerely yours

Mr. Yanga Mwangindo, Director  
Water for the Third World - Tanzania
